Chip,

“APD is pulling their security detail now” – EPA has been providing security so not sure what this means? Will APD be back onsite 24/7 or are you are just having the signs, tape and no police officers? Please verify. Thanks.

Also, the house has been secured by Sgt. Chester. There is no normal way to secure the gate without modifying the fence so Asst. Chief Birkenfeld said they would just leave it. There is a sign on the door and caution tape around the residence. APD is pulling their security detail now.

Chip
